CHARGED WITH EMBEZZLEMENT

Grand Jury Returns an Indictment Against Secretary Gates Sexton.

Bond is Given in the Sum of \$500 With A. L. Riggs as Surety.

It develops that an indictment for embezzlement was returned by the late grand jury against Gates Sexton, late secretary of the Equitable Building, Loan Fund and Savings Association, and that a warrant on the indictment was served immediately after the grand jury adjourned. Bond was given in the sum of \$500 with A. L. Riggs and A. L. Stewart as surety.

By whom the warrant was served is not known as Sheriff Bainbridge states that he and Deputy Sheriff King knew nothing of it. Deputy Prosecutor Nipp stated today that he had nothing to say in regard to the matter; had never said anything, and was not going to now.

When seen this morning Mr. Sexton at first stated that he knew nothing of the indictment and that it seemed to him that the charges were but the result of an attempt to black mail him. It was finally learned, however, that the statement which appeared in the morning papers were true. Mr. Sexton denies the charges against him and it is understood will fight the case to the bitter end.

The indictment is in the counts, one of which charges him with the misappropriation of the entire shortage shown in the recent examination of the books which was made by A. B. Irvin, cashier of the Farmers' Bank, and estimated at a little over \$16,000.

The friends of Mr. Sexton do not believe that he has been dishonest. They declare that all his troubles are due to bad bookkeeping and careless business methods.

RUSH COUNTY'S OLDEST CITIZEN

Dies at His Home in Carthage Wednesday Afternoon at 2:15 o'clock.

[Special to the Daily Republican.] Carthage, Ind., March 23 1905.—John Kizer, the oldest man in Rush county, passed away at his home, just east of town, Wednesday afternoon at two o'clock of old age. He had been in failing health for some time. He was born Dec. 16th, 1808, in Verne, near the city Hesse Cassel, in Northern Germany. There, every youth was required to learn one or more trades. Mr. Kizer was a farmer's son, and in addition to a knowledge of farming, he learned the wagoner's and butcher's trades. Mr. Kizer passed a military examination, and served as a soldier in the German army, being a member of the cavalry. On March 3d, 1841, he was married to Miss Martha Walderholdt. They continued to live in Germany for more than ten years, coming to this country in 1852. When Mr. Kizer came to Rush county, he lived just south west of Carthage. His corn crop had to be cut before it matured in order to make way for the building of the Walnut Ridge pike. The Kizers moved to their present home in 1887. Mrs. Kizer, who was born January 7th, 1816, died March 6th, 1897. To them were born nine children, four of whom are living—all in or near Carthage. They are Mrs. Durr Alzman, Conrad, Alonzo and Mary M. Kizer. He also had sixteen grandchildren and three great grandchildren. The funeral will be Friday afternoon at two o'clock at the Fletcher M. E. church, conducted by Rev. J. T. Scull. Interment at the Friends' graveyard.

LACK APPLICANTS

The Rhodes Scholarships are Going Begging in Some States.

It looks possible that the Rhodes scholarship may prove a failure for want of applicants in some States. When Mr. Rhodes' plan was first announced it was supposed that throngs of students would compete for the privilege of four years at Oxford, with \$1500 annually for expenses. Reports of the recent examinations indicate small interest in the matter. Only three Illinois students presented themselves in the examination held in the fine arts building, and so far as heard from, students in other States are not pressing eagerly for the scholarship prize. The Rhodes students from America, Germany, and South Africa have been well received at Oxford. American students in particular have been popular, so the disposition to hold back is not for want of a cordial reception on the other side.

JUDGE SPARKS IS UPHELD

He Delivers a Strong Charge to Shelby County Grand Jury

Judge Sparks delivered his charge to the grand jury of Shelby county yesterday, and is a similarly strong charge as the one delivered to the grand jury of this county recently. The Shelbyville Liberal says: "A judge has been elected who has the nerve to do his duty on the questions of liquor law violations and the gambling evil. We doubt if stronger words were ever uttered from the bench to any grand jury than those which fell from the lips of Judge Sparks. It is the only charge ever delivered against the violations of the liquor and gambling laws from the bench in Shelby county."

LOWDY FOR CHAIRMAN

Louis Ludlow says it is rumored in Washington that Capt. Lowdy, upon his return to Indiana, expects to get into the political game again in dead earnest, and it has been suggested that he might go after the State chairmanship again.

WANTS LOCATION FOR A FACTORY

W. H. Turner, of Milton, Was at Columbus and Shelbyville.

W. H. Tanner, of Milton, is mentioned as having been in Shelbyville and Columbus, seeking to locate a plant for the manufacture of a patented hay bed, of which he is the inventor. Mr. Tanner asks help to capitalize the plant for \$60,000 and found idle factory buildings in both cities named that he said would be suitable.

If Mr. Tanner has a really good thing he need not travel so far for a location. Rushville can offer no idle factory buildings, as it isn't that kind of a town, but it has many busy manufacturing and wants more.

Half a ton of coal to each inhabitant is the average the world over. The United States produces four tons to the inhabitant.

THE MAYOR OF THE CITY

Will Have His Powers Extended by the New Cities and Towns Law.

He Will Appoint the City Marshal Fire Chief, City Engineer and Other City Officers.

When the new law governing cities goes into effect the next elected Mayor will, in the discharge of his duties, be called upon to appoint the following city officers:

City Marshal.
Chief of Fire Department.
City Civil Engineer.
Secretary of the City Board of Health.

Street Commissioner.
Board of Public Works.

The Board of Public Works will consist of two members of the city council and the mayor. This Board will perform all the duties of the city commissioners under the old law, and will make the assessments for the proposed sewer system.

The city officers to be appointed by the mayor will serve during the pleasure of the mayor, or in other words would continue during the faithful performance of their duties, the mayor having power to remove any for cause. The present city officials holding these terms will serve out their present terms.

The new law also provides that no city official shall be employed during his term of office by any corporation acting within the city limits. This will cause the retirement of Councilman Dale, who is general manager of the Rushville Co-Operative Telephone company.

GENE BARROWS RESIGNS POSITION

Has Been a Hotel Clerk in This City for Fifteen Years.

Gene Barrows, one of the most widely known hotel clerks in Indiana who for the past fourteen years has been engaged as clerk at the Windsor and Grand hotels in this city, resigned his position at the Windsor at noon today at the request of the landlord Glen Miller. We were unable to learn the cause of the dismissal. Gene took tearful leave at the hotel and is still in the city. He is as yet undecided as to what he will do. His successor is expected here tomorrow.

CHANGE OF VENUE

Noblesville, Ind., March 23.—The case against ex-County Clerk Horace W. Carey was set for trial in this city yesterday, but the defendant filed a motion for a continuance on account of Auditor of State David E. Sherrick, who is a witness for Carey, being absent. Judge Christian refused the continuance, whereupon Carey filed an affidavit for a change of venue from the county, asserting that he could not have a fair and impartial trial here. Carey is accused of embezzlement. When he retired from office a year ago he failed to account for \$3,000 belonging to the Monon Railroad company which had been paid to him as clerk.

GIRLS IN PANIC

New York, March 23.—Many lives were endangered and damage to the extent of \$30,000 was done by a fire in the nine-story Empire State building at Broadway and Bleeker streets. Scores of girls employed in the upper portion of the building were thrown into a panic, but all escaped.

COSTS NOTHING

Indiana Will Get the Factory Statistics Free of Charge.

Without cost the State of Indiana is to receive statistics and information concerning its factories and industries from the federal government.

Joseph H. Stubbs, State statistician, has been notified by W. M. Stewart, the government's chief statistician for manufacturing, that card reports of the government factory census of Indiana, which is now being taken and compiled will be turned over to him in time to be made a part of his 1906 report.

Receiving the factory census from the government will permit State Statistician Stubbs to divert into other fields the funds which would have been spent for this purpose.

OBSERVERS IN THE ARMY

Are Convinced of the Efficacy of the Japanese Training in War.

Washington, March 21.—Results of the observation of the American army officers during the Russo-Japanese war formed the subject of a conference between the president and Assistant Secretary of War Oliver; General Crozier, chief of the bureau of ordnance, and several officers of the general staff. The importance of individual initiative in the soldier and of higher physical training than heretofore has characterized the private in the ranks has been made evident. The conference was preliminary to the adoption of such means as will increase the training and add to the initiative of the enlisted men in the army. Methods will be taught them which are born of experience and observations. It is expected these methods not only will increase the efficiency of the private soldier, but also will enable him the better to protect himself and perhaps his comrades in time of emergency. The new methods will be promulgated in general orders to the army.

BATTLE FLAGS TO BE RETURNED

Indiana to be Formally Presented With Tattered Emblems.

Indiana will soon receive back its battle flags. Within a few days Governor Hanly will receive a letter from Major General F. C. Ainsworth, military secretary of the United States army, asking the governor to designate the persons or organizations to whom the Indiana recaptured union battle flags are to be returned, are arranging to send delegations there to receive them, but it is not expected that Indiana will send a delegation or that there will be any formality connected with the transfer.

The Union and Confederate battle flags which Congress, at its recent session, ordered returned, have never been available for public inspection since they were put away in the so-called "flag room" at the war department at the close of the civil war. As a matter of fact, the "flag room" is nothing more than an attic. In seeking to catalogue them prior to sending them to the various States General Ainsworth finds that many of them have no labels or marks of any kind to identify them. They are exactly in the same condition as when put in storage. Some of them are attached to rough bark poles and many are in tatters. The Indiana flags will be expressed directly to whomever Governor Hanly may designate to receive them.

A DISASTER IN A MINE

Six are Killed by an Explosion in a Princeton, Ind., Coal Mine.

Four Others Were Seriously Injured of Whom Two Will Probably Not Recover.

Princeton, Ind., March 23.—Six miners are dead and four injured, two probably fatally, as the result of an explosion in the mine of the Princeton Coal and Mining company here.

The dead: Hudson Weatherby, aged thirty years, married; Edmond Geiser, twenty-three, single; Albert Geiser, twenty-one, single; Harry Taggart, forty-six, single; William Biggs, thirty-eight, married; George Dill, forty-six, married. The injured: John Dill, son of George Dill, twenty years old, single, seriously burned and will probably die; William Jones, fifty-eight, married, seriously burned and will probably die; Joseph Ward, forty-seven, married, will recover; General Cole, thirty-seven, will recover.

Of the dead all but Dill were dead when found in the mine. Their bodies were rescued two hours after the explosion, the delay being caused by the inability of the rescuers to combat the after-damp. The five injured, including George Dill, who later died, were brought to the surface thirty minutes after the explosion. They were found heaped together in an unconscious state.

The cause of the disaster is not known save that it resulted from a powder explosion. The miners were making their blasts previous to leaving the mine last evening, and most of the miners had ascended. Whether it was a premature shot or an overcharge is not known now, nor is it known who fired the shot. It is probable one of the dead miners fired the shot, but which one may never be known. The men who were in the mine can give no light on the cause.

The explosion wrecked a portion of the mine and the supporting timbers were hurled in every direction. The supports gone, the slate roof gave way in many places and the rescuers were in constant danger from this source.

The first intimation on top ground that an explosion had occurred was the action of the cage rope, which was ascending. The engineer noted a relaxing of the hoisting rope, indicating a force from below hitting the cage.

This is the second serious disaster for this mine, operated and owned by the Princeton Coal and Mining company. Messrs. Hubbard and Ogilvie of Indianapolis being the principal stockholders. Nine years ago an explosion in the mine killed nine men.

THE TRACTION BEARS EXPENSE

Of Grading the Prospect Street Extension in Indianapolis, a Mile in Length.

The Indianapolis News of last evening says: "The grade for the extension of Prospect street, from the city limits to the Michigan road, has been established by County Superintendent Klausmann, and submitted to the Board of County Commissioners. The Indianapolis & Cincinnati Traction company will run its cars over this road and the cost of making the grade, a mile in length, will be borne by that company. The reconstruction of a bridge over Pleasant Run will be necessary. Work is to begin at once."

Experiments are being made in Charlottensburg, near Berlin, with a device for lighting and extinguishing all the street lamps simultaneously from the gasworks.

MEANS BUSINESS

Moblesville Mayor Says Playing Cards For Prizes is Gambling.

Noblesville, Ind., March 23.—Mayor Dulin in an address delivered to the city council again criticised in severe terms the practice of awarding prizes at card parties. When he went into office last September he asked the society people of the city to cease giving prizes at parties, and in a general way the practice was discontinued, but it has been resumed again.

Among other things Mayor Dulin said the better class of people could not justly censure the police for permitting gambling rooms to run when they indulged in what he considered to be equally as bad a practice, at least in its moral effect, in their parlors. He insisted that as all the slot and cigar machines had been removed from business houses without complaint from the proprietors, society people should show a like spirit to comply with the law. The mayor instructed the police to keep a close watch on all card parties, regardless of where they are held. If the officers can secure evidence that prizes are being given, arrests will be made.

WILL BECOME SECRETARY

C. B. Riley Has Good Chances for Place With Railroad Commission.

The Indianapolis Star this morning, says: "It seems to be pretty generally understood at the State House that C. B. Riley, of Rushville, secretary of the Indiana Grain Dealers' Association, will be secretary of the new Indiana Railroad Commission. He was a candidate for a place on the commission, but did not land, for the reason, it is said, that the Governor was opposed to the idea of putting either a shipper or a railroad man on the body."

PLEAD GUILTY AND IS FINED

Elliott Palmer Comes Before Mayor Hall—One Charge Nollied.

At one o'clock this afternoon the case of Elliott Palmer, charged with assault and battery and profanity, came up for trial in Mayor Hall's court. Deputy Prosecutor Nipp nollied the assault and battery charge as he thought there was an insufficient amount of evidence to sustain it and Palmer entered a plea of guilty in the other, he was fined \$1.00 and cost amounting in all to \$10.35, and he paid his fine.

STILL IN JAIL

Obediah F. Bowman, who is in jail on the charge of embezzlement, has failed in his efforts to get bond and it is probable that no further effort to secure a bondsman will be made.

NOT SUSTAINED

Springfield, Ill., March 23.—The Sangamon county grand jury, which made its final report to Judge Thompson yesterday and were discharged, did not indict Richard F. Kinsella or any one else in connection with the charges of fraud made by Frank D. Comerford in the Illinois legislature matters. The list of indictments, footing up to the grand total of fifty-four, did not contain any sensational ones and in fact none other than those which have been anticipated.

THE LAW ON VOTE BUYING

By the New Law the Buyer and Seller are Both Held Liable.

Penalty is Fine of \$50 and Disfranchisement For From Ten to Twenty Years.

The present law against the corruption of the ballot as is well known, provides punishment only for the vote seller and fixes his punishment at disfranchisement merely. The new law which goes into effect next June, provides punishment for both buyer and seller, the penalty being the same in each case, a fine of \$50 and disfranchisement for a period of not less than ten nor more than twenty years. A very wise provision of the law and one which will make its enforcement possible exempts from punishment either the buyer or seller provided he testifies against the other. The law applies, to quote its language, to "whoever directly or indirectly hires, buys or offers to buy, or furnishes any money or other means to be used, or handle any money or other means knowing the same to be used to induce, hire or buy any person or vote or refrain from voting any ticket for any candidate for any office to be voted for at any election held in this State; or whoever attempts by such means to induce any person to vote or refrain from voting for any candidate at any election or primary election."

"Also to whosoever sells, barter or offers to refrain from voting for any candidate—either for any money or property or thing of value, or for any promise or favor or hope of reward. "Any person called as a witness to testify against another for the violation of any one of the provisions of section one or two of this act, is a competent witness to prove the offense, although he may have concurred as a party, and shall be compelled to testify as other witnesses, but such evidence shall not be used against him in any prosecution for such or any other offense growing out of the matters about which he testifies, and he shall not be liable to trial by indictment or information for punished for such offense."

MANY BAD WRITERS

(New Castle Tribune) If the man who conceived the "vertical" writing idea had been banished from the country when he was a small boy it would have been a blessing to the present generation. The method turned out a few good scribes in spite of itself but the majority were bad, so bad that business men will not employ them. In the last two or three years we know of a dozen young ladies who otherwise qualified and could have had excellent positions in offices, but they could not write a legible good appearing hand. The evil has been partly remedied in the schools, but it should be entirely abandoned.

The 3032 karat diamond recently found in the Premier mine, South Africa, has been named the "Cullinan."

Sunday School Department

E. E. HUNGERFORD, Editor.

OFFICERS' MEETING.

The county and township officers of the Sunday School Association will meet in the assembly room on Saturday, April 1st at 1 o'clock p. m., for the purpose of completing and arranging the program for the County Sunday School Convention, which will be held on May 27th at Rushville. Every officer is urged to be present as other matters will come before this meeting. All Sunday school superintendents, teachers and others who are interested in Sunday school advancement are invited to attend this meeting.

Last Sunday the attendance at the M. E. school, Rushville, was 153 and the offering was \$4.05. This is a good attendance, considering the bad weather. It shows that the interest is good.

Rev. W. W. Sniff's class attended the funeral of Roy Siders last Sunday evening in a body. Rev. Sniff conducted the services. Roy was a member of this class and will be greatly missed by both teacher and class.

Mr. Joe Ong, superintendent of the Presbyterian school, Rushville, substituted last Monday for Miss Fisher who was sick. This is new work for Joe, but he did splendid.

The Indianapolis News' Newsboys' Band will give a concert in Rushville next Friday evening. This band is composed of 45 pieces; they also have a magician. They took the prize at the St. Louis Fair, over the Milwaukee Boys Band which was thought to be the best boys band in the country. All the Sunday schools in the city will get a certain part of the price of each ticket sold, which will probably amount to a considerable sum.

Miss Luedith Ward, of Gowdy, was not able to attend school last Sunday on account of a very sore throat.

Mr. O. F. Guffin, of Noble township, has lately moved from the Guffin homestead to L. M. Clark's farm. He is still in Noble township, and will continue to serve as president.

Next Sunday will be the quarterly review, and it will be a good opportunity for teachers to bring again to remembrance some of the great lessons that we have gone over. We cannot review them too often.

Practical Recipes

For the Housewife

BOSTON BROWN BREAD.

Two cupsful of graham flour, one and one-half of corn meal, two of sour milk, one of New Orleans molasses, one teaspoonful of soda. Melt top from tin cans in which canned corn or peas are bought. Fill them a little over half full of the batter and steam three or four hours. A nice crust on top is gained by setting the cans of bread twenty minutes in a hot oven. Dip in cold water for a minute, and the loaf will slip out easily.

GRAHAM TEA CAKE.

One cupful each of sugar and sour cream, two of graham flour, two eggs, one teaspoonful each of salt and lemon, two-thirds of soda. Beat sugar and eggs together, then add other ingredients and bake in a moderate oven.

KITCHEN LORE.

A few drops of kerosene on the duster makes it take up dust better, prevents its flying and brightens the furniture.

In burning soft coal, if stove door lid is opened slightly to allow of a draft up the chimney for a moment before opening wide to replenish, there will be no rush of smoke and dust that is so offensive with this fuel. A handful of salt or a piece of zinc thrown into the stove occasionally when there is a good fire helps to keep flues clear.

If a gas or oil range is used in ironing, heat and time will be saved, by having a sheet-iron cover made for irons, cone shaped, with a ring at the point to lift it by. The cover must be large enough to set down over the iron-holder. It is good also to cover irons on a wood stove.

ALMOND PUDDING.

Make a sponge cake in a long pan; have the cake about two inches thick. Blanch a pound of almonds and pound them in rose-water; mix with four grated crackers, six eggs, a pound of butter a pound of sugar and a wine glass of grape jelly. Pour on the cake, set in the oven 30 minutes, cover with meringue, flavored with extract of almond.

INDIAN CHUTNEY.

This is very good with cold meat. Boil together one and one-half dozen apples, the sourest you can get, three pints of vinegar, one pound of raisins, stoned and chopped, one pound of sugar, one-half pound of fine salt, one-fourth pound of onions, two ounces of garlic, one-half pound of roasted mustard seed and a little cayenne pepper. When well mixed and cooked, bottle and seal.

NEW YORK FASHIONS

Pattern For Lady's Long Kimono or Lounging Robe by Martha Dean

There are many times when a long kimono is more useful than a dressing sack, and the model here shown is for one of those times. Woman nowadays usually finds time to rest a little while during the day, and during that time her resting robe should first of all be comfortable and then dainty and pretty. The garment shown today will not be found wanting in either of these requirements. It is made in real Japanese style, with drop shoulder and with kimono sleeve. If desired, one could wear a sash or silk girdle with the garment, although it is very pretty simply trimmed with bands. Any of the figured silk, cashmere or cotton crepe, which is very inexpensive, may be used.

Pattern No. 6236.
Sizes, small, medium and large.

DIRECTIONS FOR ORDERING

Send 10 cents to this office, give number of this pattern, No. 6236, and state size desired. It will then be sent to you by mail postpaid. Be sure to write plainly and always give full address. Several days must be allowed for delivery of pattern.

NOTABLE PROGRAM

Will Mark Celebration of
State University's Three-
Quarter Centenary.

AN IMPORTANT DATE

Seventy-Five Years Ago the First Class Was Graduated From This Institution.

John W. Foster, Class of '55, and Governor Hanley Will Participate in Exercises.

Bloomington, Ind., March 23.—Arrangements are being made for an elaborate commencement program at Indiana university. Ex-Secretary of State John W. Foster will deliver the commencement address and Governor J. Frank Hanley will make the address before the school of law. The occasion will be doubly notable on account of the prominence of the principal speakers, and the fact that this year's exercises will mark the three-quarter century milestone of the graduating class here. The university was founded in 1820, opened its doors in 1824, and the first class graduated in 1830. John W. Foster finished his collegiate course in 1855, and the commencement exercises this year will celebrate his half-century as a graduate. The number of graduates this year will exceed that of any previous year by about 25 per cent. If the \$100,000 student building is completed by commencement a suitable program in honor of that event will be given.

PROTECT YOURSELF AGAINST GERMS

People With Weak Stomachs Most Liable to Catch Disease.

When the stomach and digestive organs are weak, the food does not digest, and there is a sour, slimy, fermenting mass making it an ideal spot for the disease germs to multiply. The only way to protect yourself against disease germs is to strengthen the stomach and digestive organs, and Mi-o-na is the only agent, so far as is known, that will accomplish this.

The ordinary medicine that is taken for indigestion and stomach troubles is advertised to act upon the food alone, and hence can give no more than temporary relief. Mi-o-na is a certain cure in all cases of stomach troubles, excepting cancer, because it enables the stomach and digestive organs to act in the way Nature intended they should. Drugs cannot digest the food; they simply decompose it.

If you suffer with distress in the head, chest, sides and back, belching of gases and undigestive food, bad taste in the mouth, dizziness, or vertigo, heartburn, variable appetite, sick headache, spots before the eyes, and have a general feeling of dependency, weakness and debility, you should at once strengthen the stomach and digestive system by the use of Mi-o-na. There is no liquid, no alcohol, no spoonful doses with Mi-o-na. Just one simple tablet out of a fifty cent box before eating, and your stomach will soon become so strong and healthy that you will become germ proof. Ask F. B. Johnson and Co. to show you the guarantee under which they sell Mi-o-na; costs nothing unless it cures.

The Spring Medicine

—FOR THE—

Whole Family.

If your blood and your whole system is clogged up with impurities accumulated during winter; if you feel dull and drowsy; if your brain seems foggy; if everything you do requires a great effort on your part; if you feel "out of sorts" all over—then you certainly need

Dr. Beher's Peptonic Syrup,

"The Spring Medicine for the Whole Family." Cleans all impurities out of the whole system, sharpens the appetite, aids digestion, increases strength and makes life worth living once more.

Price, 50c. Per Bottle.

* Mrs. Cansada Bebout is but little better.

People over the city are now beginning the work of making garden.

Ninety pupils in the county schools passed the eighth year examinations Saturday.

Uncle Zach. Parrish, who has been in poor health for some time is now much better.

The Orange township schools will close tomorrow for the spring and summer vacation.

Bert English was the guest of Walter S. Heeb, near Glenwood, today on business.

County Commissioner Kelso, of Richland township, was in town today, and he reports the farmers as being busy in his locality.

Miss Margaret Farley, of Shelbyville, attempted to accelerate the fire in the kitchen stove with coal oil, and in the explosion she was badly burned about the face, besides losing much of her hair.

A horse belonging to John Gibson, west of town, was stolen from the public hitchrack Monday night and was found Tuesday morning in front of William Fisher's residence. It showed signs of having been driven very hard and it will be some time before it fully recovers from the effects of the drive. The animal was a fine one and was returned to its owner. No clues to the driver have been obtained.

Franklin Star: The "divorce habit" has received a back-set in the Bartholomew county court. At the last term Judge Hacker gave the applicants for separation a run for their money and at the court term ending Saturday not so many cases were filed and three of these were refused. When the facts warrant, Judge Hacker has granted divorce, but in most cases he has evidently found there is no cause for action.

Greensburg News: A young man, said to be an employee of the Big Four railroad, hired a rig at the Big Four livery barn yesterday afternoon and drove to Milroy, where the horse took sick on the road and died. It is reported that the man had a woman companion with him in the rig and when the horse took sick, left her in the buggy with the sick animal, while he cut across a field to the railroad and boarded a north-bound freight. The animal died a few hours later, and the railroad man telegraphed this morning that he would make good the loss to the livery stable.

Advertise your business and give home people an opportunity to spend their money with you. If you are a dealer in ready-made clothing tell the people about it and that you have the stock to suit their demands. If you are a lumber dealer, let the people know what you can do for them in the way of building material—else they might buy a bill out of town. If you sell paint, advertise that fact. If a wallpaper dealer, now is your chance to do business. If you run a big department store, ask everyone's trade—don't limit yourself to a one-sided trade. In other words get in line for business from all classes. It pays not to draw the line.

According to the Shelbyville papers the largest sale of horses ever held in Shelby county was that by Councilman C. Meloy. Among the sales were: To F. A. Beck, Indianapolis, sorrel team, \$367.50; O. A. Bowles, Franklin, horse, \$247.50; George Caldwell, Rushville, bay team, \$355; T. W. Larrabee, Rushville, horse, \$27.50; A. E. Lishner, city, Topsy, \$170; John Crim, city, stallion, \$160; William Schrader, city, sorrel team, \$660; Charles Gray, mule team, \$300; Thomas Lollis, gray team, \$310; Fred Meloy, Daisy, \$235; Harry Sorden, bay team, \$335; Charles P. Sindlinger, horse, \$150; Ralph Clark, \$131; W. F. Gordon, \$150; Louis Smith, \$152.50; Forty horses sold for \$5590.50, or an average of about \$139.76.
